

Saint Thomas Aquinas

In his own words, St. Thomas wrote *De Regno* to “carefully expound (according to the authority of Holy Writ and the teachings of the philosophers as well as the practice of worthy princes) both the origin of kingly government and the things which pertain to the office of a king.” Like any great saint or man inspired by God, Thomas relied “for the beginning, progress and accomplishment of this work, on the help of Him, Who is King of Kings, Lord of Lords, through Whom kings rule, God the Mighty Lord, King great above all gods.”
