

Crushing Satan

On June 13, 1929, the Mother of God appeared to a Portuguese nun by the name of Sister Lucia and confided to her that she wanted Russia consecrated to her Immaculate Heart promising to convert it by this means and a subsequent "Era of Peace" granted to the nations of the world. The requested consecration was fulfilled 55 years later by Pope John Paul II (March 25, 1984).

Consequence: One by one the nations behind the Iron Curtain won their freedom, Russia ceased being a Communist nation and is rapidly becoming a defender of Christian values.

The demise of Liberalism and the weakening of Freemasonry are corollary to the Conversion of Russia. There is a general Christian renewal occurring; it began in Poland, quickly spread throughout Eastern Europe and is now evident in Italy, Austria, Germany and France. Immerse yourself in the truth about these exciting times and in the news that the global media is straining to keep the world from realizing: The renewal promised at Fatima is underway, the Crushing of Satan and the coming Triumph of the Immaculate Heart.

Don Felix Sarda y Salvany

Liberalism, in the words of Msgr. Salvani is the "burning issue of our century". It is the "radical and absolute negation of the sovereignty of God", yet we breath in its rapacious air everyday, often without realizing its toxicity or its origin. Consequently, many well-meaning people blame contemporary "liberals" for the world's social problems and then unwittingly clamor for a return to the teachings of the

nation's "Founders" who, unbeknownst to them, are one of the most influential gathering of liberals ever assembled.

Clearly, we need to learn more about liberalism.
