

Swordsmanship (\$50.00)

Within the setting of students of various skills, this ongoing class introduces the fundamentals of fencing with the French and Italian Foils, footwork, and basic strategy for fencing, culminating with an end of the semester Fencing Tournament with the Gold'n Bald Fencing Club.

The Book of Revelation and Catholic End Times Theology

CATHOLIC END TIMES THEOLOGY is essential for understanding the signs of the times, it will broaden horizons, diminish confusion, and open eyes to the coming triumph of the Immaculate Heart of Mary.

Most Catholics have some vague idea about the rebuilding of a third temple, about the restoration of Israel and about the persecution of Antichrist. What they are unaware of is that these ideas are products of "Christian Zionism", a brand of Protestantism foreign to the Catholic faith. The deficiency is so great that even the Protestant National Council of Churches recognizes the need for more Christian versions:

"Christian Zionism is flourishing in part because of the lack of knowledge and popularly accessible alternative Christian theologies of the end-times".

The Book of Revelation and End Times Theology provides a much needed Catholic alternative that negates the idea of a future third temple, the restoration of Israel, and the entire Evangelical reading of the Book of Revelation.

The Catholic Kings of Christendom

Study how Catholic kings established Christian commonwealths following the collapse of Rome. Examine their encounters with paganism, establishment of Christian schools and legal judgments, which gave shape to the moral, economic, social, and political fabric of Europe built on the principles of justice and charity.

The Federalist Papers

The Federalist Papers are an invaluable array of political sagacity, an unsurpassed collection of reasons for the advancement of constitutional law and an attestation to the political prudence possessed by our Founders who gave us a “mixed government”, the generally agreed best structure of government possible.

These papers should be studied and mastered by anyone interested in, or involved with, social, economic, and political renewal because such renewal involves structural adjustments that are congruent with authentic integral development of the human person.

SAMPLE ONE OF OUR “GREATEST BOOKS” FOR FREE
